High Precision Sensor Down to +/- 0.2 degrees C  
Memory For 30 Groups of Data  
Fast Instant Measurement  
Non-Intrusive Design

## Type IIR Masks

- 1- Splash resistant non-woven fabric
- 2- High density filter layer
- 3- Direct contact skin layer

Latex and SVHC free  
 Composed of 3-ply fabric  
 Outer layer-waterproof nonwoven fabric  
 Middle layer - filter paper  
 Inner layer - common nonwoven fabric

### PL-610

#### OptiPro 3 Ply IIR Surgical Mask

##### Product details:

Features a protective 3-ply design creating an effective barrier, providing superior levels of protection. Stops microbes from entering or exiting the mask, thanks to a melt-blown polymer material which provides a highly effective filter. Comfortable yet secure. The latex-free, elasticated loops slide easily over the ears and securely hold the mask against the user's face. Soft-touch fabric helps to reduce the risk of pressure damage behind the user's ears. The pleated design allows the user to expand the mask and fully cover the area from nose to chin, achieving a perfect fit.

Adhere to European Standard EN 14683:2019, ASTM F1862 & ISO 22609. Mask type: Type IIR  
 50 pieces per box

### PL-611

#### Evereast Mask
